Trung Phan Hoang

Experience

VNUK
2017

Bitbucket:

<https://bitbucket.org/hhmhieu/vnuk-spm-rcd>

Developer for VNUK Management Project

This is my very first Android Project to develop an application that can be used to manage the Syllabuses, Lecture Notes, Schedule, etc for Student and Teacher in VNUK. In this project I learnt how to use Firebase for Realtime Database and Java skill is also used in this.

2017

Github:

<https://github.com/tesha3213/vnuk-bmapp>

Developer for Book Management Project

I had a final project that designed a Book Management Web Application by Ruby on Rails. A few more thing I learnt from this project is using Heroku, AWS to deploy the application using Git for Version Control.

Website address: <https://vnuk-bm.herokuapp.com/>
